

Chapter 1

MS-5203 CHASSIS INSTALLATION GUIDE

1. Overview

The MS-5203 is a specially designed chassis for MS-5186 mainboard. The chassis can accommodate one Floppy drive, Hard drive, and Standard CD-ROM. The chassis back panel support LAN, Speaker, PS/2® mouse and keyboard, Printer port, TV-OUT, S_Out, and VGA port.

2. Installation Tools

Tools you need before you start:

- screw driver (phillips cross head type)
- long nose pliers
- anti-static wrist strap or glove
- user's guide.

3. Screw

Two types of screws are provided by the MS-5203: Flat head screw and Screw w/washer.

Flat Head

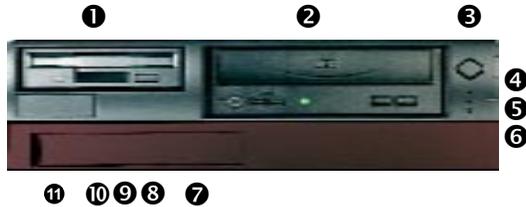

This type of screw is used to mount the mainboard into the Case.

Screw w/
Washer

This type of screw is used to mount the Floppy Drive, CD-ROM Drive.

4. Front Panel Overview

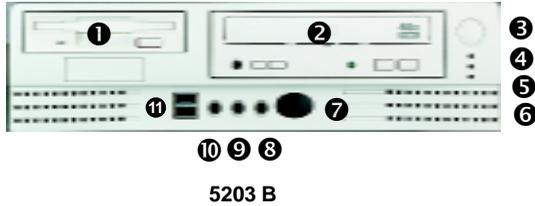

5203 A

1	3.5" Floppy Drive
2	Standard CD-ROM Drive
3	Power On/Off Switch
4	Power LED Indicator
5	Hard Disk LED Indicator
6	Network LED Indicator
7	IR Window
8	Microphone Jack
9	Line-In Jack
10	Line-Out Jack
11	USB Ports

Note: Front Panel (A) comes with Remote Keyboard and Remote Controller(optional).

Warning Always turn on the monitor before the system. Otherwise, during BIOS post, the display will automatically use TV-out as the default display.
