XtDisplayStringConversionWarning – issue a conversion warning message

void XtDisplayStringConversionWarning(*display***,** *from_value***,** *to_type***)**
    Display* *display***;**
    String *from_value***,** *to_type***;**

display   Specifies the displaly connection with which the conversion is associated.

from_value   Specifies the string that could not be converted.

to_type   Specifies the target representation type requested.

The XtDisplayStringConversionWarning function issues a warning message using **XtAppWarningMsg** with name ''conversionError'', type ''string'', class ''XtToolkitError, and the default message string ''Cannot convert "*from_value*" to type *to_type*''.

To issue other types of warning or error messages, the type converter should use **XtAppWarningMsg** or **XtAppErrorMsg**.
