

NOW STARTING AT \$2,899\*, THERE'S NEVER BEEN A BETTER  
TIME TO BUY A COMPAQ LTE 5000. (OF COURSE, IT'S A PRETTY GOOD  
TIME TO BE SELLING THEM, TOO.)

When it comes to satisfying your customers' needs, no other notebook can match the Compaq LTE 5000. That's because in addition to its Pentium® processor and removable hard drive up to 1.35 GB, it has an innovative modular design so it can change as quickly as your customer's needs change.

Its front-loading MultiBay allows a CD-ROM drive, a second hard drive, a second battery or a floppy drive to be added whenever the need for one of them arises. And it has an optional expansion base with integrated Ethernet and two more MultiBays for desktop use in the office.

All of this has made the LTE 5000 a very popular notebook. And now with its substantially lower price and greater availability, it's bound to be more popular than ever. (With you as well as with your customers.)
