

COMPAQ DESKPRO 386/20™ PERSONAL COMPUTER

THIS LIST IN NO WAY CONSTITUTES ENDORSEMENT OF ANY PARTICULAR PROGRAM OR PRODUCT, FOR ANY PARTICULAR PURPOSE, BY COMPAQ COMPUTER CORPORATION.

Compaq Computer Corporation maintains an intensive on-going program to review available software and hardware for use on the COMPAQ DESKPRO 386/20 Personal Computer.

The following is a list of currently-available programs and products that have been tested by Compaq Computer Corporation and/or the publisher of the specific program or product for use on the COMPAQ DESKPRO 386/20 Personal Computer.

The software and hardware listed may have specific hardware and software requirements, such as MS-DOS® Version 3.3. When required, the latest versions of COMPAQ software (MS-DOS Version 3.3 which contains COMPAQ BASIC Version 3.3) are used for testing.

AN IMPORTANT MESSAGE FOR COMPAQ COMPUTER USERS ABOUT RADIO-TV INTERFERENCE

Many of the hardware products listed on these pages are considered "personal computer peripheral equipment" by the Federal Communications Commission and, therefore, are usually required to be certified by the FCC as meeting the Class B radio frequency emission limitations of Part 15 of the FCC Rules designed to reduce interference to radio communications including TV reception. Products subject to certification generally must be certified before these devices lawfully may be advertised, sold or leased. Compaq Computer Corporation makes no representations as to the radio and TV interference potential of any of the products listed in this booklet or whether these devices have been certified by the FCC. Equipment which has been certified should be identified by an "FCC ID number" consisting of seven to eleven numbers and letters. The FCC number usually will be circumscribed by a box (e.g. FCC XXXYYY1234A) and displayed on a label on the device or in its instructions. Before buying hardware products listed in this booklet, you may wish to ask the seller whether certification is required and has been granted by the FCC.

THIS LIST IN NO WAY CONSTITUTES ALL OF THE PROGRAMS THAT RUN ON COMPAQ COMPUTER PRODUCTS. THIS LIST REPRESENTS TESTED SOFTWARE AND HARDWARE PRODUCTS ONLY.
