

Just a few
months ago,
computers this powerful
were tracking
planetary movements,
pondering
quantum physics
and building
rockets.

Now they're taking

care of business, too.

Introducing the COMPAQ DESKPRO 386/20e. 20-MHz 386 performance designed to fit the increasingly sophisticated needs of 286 users.

People who work with 386 personal computers used to be called rocket scientists. Now they're also called accountants, engineers, managers and CEO's. Thanks to the new COMPAQ DESKPRO 386/20e.

It delivers 386 power to people whose demanding needs have outgrown the capabilities of their 286 PC's. Better yet, it packs all

You're in business with a 20-MHz 386 microprocessor.

this power into a design that fits neatly on your credenza.

Start with speed. Everything in the new COMPAQ

DESKPRO 386/20e is optimized to go faster.

Its 20-MHz Intel 386™ microprocessor with cache memory is surrounded by the exclusive COMPAQ Flexible Advanced Systems (Flex) Architecture. This high-speed combination runs the world's largest library of software 25% faster than non-cache 20-MHz 386-based PC's. And 50% faster than non-cache 16-MHz 386-based PC's.

Its optimized 32-bit design also enables you to take full advantage of powerful 386 software and

multitasking operating systems such as Microsoft® Windows/386, MS® OS/2, XENIX® and UNIX.

You'll find that a long list of high-performance features is built in. One megabyte of memory. Sharp, high-speed VGA graphics. Support for 5¼" and 3½" diskette drives. And standard interfaces to connect a printer, mouse and communications devices.

Of course you have growth potential. Five expansion slots are available: four for a network card, mainframe communications board, modem or other devices, and one high-speed 32-bit slot that allows you to expand memory up to 16 megabytes.

You have options, too. There's room to add two high-speed fixed disk drives, with 110 or 40 megabytes of storage. You can choose a 135- or 40-megabyte tape backup. Or match the number-crunching power of a dedicated engineering workstation by adding a powerful Intel 387™ or Weitek 3167 coprocessor.

With its integrated design and performance, the COMPAQ DESKPRO 386/20e represents the ultimate space vehicle.

High-speed VGA graphics are built in.

Choose 5¼" and 3½" diskette drives.

Standard interfaces are on board.

COMPAQ

It simply works better.

Compaq makes high performance everybody's business.

Whether you use a personal computer for launching rockets or corporate acquisitions, Compaq delivers the highest-performing solution.

For those who want everything, now, the COMPAQ DESKPRO 386/25 is the most powerful PC available. For growing performance requirements, the new COMPAQ DESKPRO 386/20e is a move into the power structure. And for users considering 286 PC's, the COMPAQ DESKPRO 386s is an affordable route to the fast track.

These PC's are simply the highest-performing in the world. That's one reason PC experts rate COMPAQ highest overall. And why for the past four years COMPAQ has been added by more FORTUNE 1000 corporations than any other brand.

To make this performance part of your business, call 1-800-231-0900, Operator 70. In Canada, 1-800-263-5868, Operator 70. We'll give you the location of your nearest Authorized COMPAQ Computer Dealer and a free brochure.
