

At last, the world's  
best-selling portable computer  
has a little competition.

It's 30% smaller

17% lighter

400% faster

# Introducing the remarkable new COMPAQ PORTABLE II

Now there's a portable personal computer so small, so light, and so fast it defines a new industry standard. From the same company that set the standard—COMPAQ®

The new advanced-technology COMPAQ PORTABLE II™ has all the advantages of the world's best-selling full-function portable—the original COMPAQ Portable—plus it's even more portable. And it's far more powerful than most desktop computers.

With its 80286 microprocessor, the COMPAQ PORTABLE II can run all the popular business software written for IBM® Personal Computers. At speeds *three to five times faster* than the COMPAQ Portable, IBM PC/XT™, and other compatibles.

### **It's more computer in less space**

Never before has a computer this small been capable of so

much. Making the COMPAQ PORTABLE II 30% smaller and 17% lighter—with no reduction in monitor size and a big gain in functionality—was an engineering triumph. The result is a full-function, advanced-technology personal computer that's easy to take on business trips or carry from desk to desk.

### **A computer for now and for the future**

The COMPAQ PORTABLE II excels in compatibility. And because of its standard 360-Kbyte diskette drive format, your data diskettes will be fully interchangeable with other COMPAQ, IBM, and compatible personal computers.

Expandability? An optional 10-Megabyte fixed disk drive stores over 5000 pages of data. RAM expands to 2.1 Megabytes without an expansion slot, and with one expansion slot RAM can expand to 4.1 Megabytes.

Since interfaces for the most popular peripherals are already built in, the two expansion slots can be used for *connecting* your computer to others: add a modem, a networking board, or a board for communicating with your mainframe.

### **No compromises**

The COMPAQ PORTABLE II puts tremendous computing potential within the grasp of every computer user. It's backed by the service and the support of over 2900 Authorized COMPAQ Computer Dealers worldwide. Plus, it's made by the undisputed world leader in portable personal computers. And for that title, there's no competition.
